Examiner Guang Li	Art Unit 2146	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 08 May 2008 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) The period for reply expires _____ months from the mailing date of the final rejection.
b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
(a) They raise new issues that would require further consideration and/or search (see NOTE below);
(b) They raise the issue of new matter (see NOTE below);
(c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
(d) They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. Applicant's reply has overcome the following rejection(s): _____.
6. Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. For purposes of appeal, the proposed amendment(s): a) will not be entered, or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:
Claim(s) allowed: _____.
Claim(s) objected to: _____.
Claim(s) rejected: _____.
Claim(s) withdrawn from consideration: _____.

Supervisory Patent Examiner, Art Unit 2146

Applicant Arguments:

- A) Claims 1, 16 and 24 have been amended to overcome 112 rejection
- B) Does not teaches Allocating the bandwidth according to the rating survey
- C) Program information screen of Ellis is not the same as nd has nothing to do with " matching the content and the subscription informaiton to form an aggregate content bit for the plurality of network nodes"
- D) does not teaches creating a rating survey via the subscription information, the rating survey to maximize allocation of bandwidth, the rating survery including.... user contributed observaction see Remark Page 12

Reposnse to A, Examiner disagrees with applicant's argument A. Applicant's propose amendment still unclear of one or more of user interest level raling content, user timeing preferences receiving, and observational profile or one of more of each user interest level raling to content (see Final Office Action page 4). In addition, It is unclear the first "one or more of" in claim 1 line 10, whether is one or more of all the limitations, which one of user interest level relating to content (Rate rating) will meet this limitation. See Final Office Action Page 7

Response to B, Examiner disagrees with applicant's argument B. Applicant addresses out Alessi's rate converter that relies on a weight based priority scheme and the protocol-independent error-control system that includes server compoenets that assist in providing more reliable data transmission between endpoints. Alessi's does show rate converter is relies on weight based prioirty (Every user giving weight priority same as giving rating survey to allocating bandwidth) see Final Office Action Page 8

Response to C, Examiner disagrees with applicant's argument C. Matching the content and the subscription information can be interpretes as user subscribe for content information and the similar to the selected program or displays a list of attributes of the selected program

Response to D, Exmaner disagrees with applicant's argument D. Ellis does teache creating rating survey related to the user interest level relating to the content (Rate rating are being allows the user to rate this collected for this program , and to send that rating program see Ellis ¶[0129]) see Final Office Action Page 7
